“Our company started using Discoveries Unlimited in 1990. We had decided to use Discoveries Unlimited to help us profile potential employees in order to build a good, cohesive group that would work well together with good attitudes and a common goal of putting out a top-notch product. In the time since, we have achieved and are continuing to achieve this goal. Anne’s accurate and informational profiles have not only helped us to find the right people for this company but has saved us all the hassles, such as the investment of time and money of hiring the wrong ones.”
