

Past Life

"Our past life experiences are imprinted in our memories! We can go back in time and retrieve that information whenever we choose!"

Begin a remarkable journey into your past! Using a light form of self-hypnosis, you will be gently guided back in time to "see and experience" your past life.

New doors have opened in medical research and physics. One after another of our most basic assumptions about the nature of time, space and distance have been overturned. There are no time boundaries and we are only limited by our imaginations.

You can now slowly and with experienced and professional help, open the door to that "distant time."

While at ease and in full control you will learn to:

- Discover how your previous life can influence your present behavior, responses and relationships
- Why certain persons, places or things today, feel familiar
- Learn to free yourself from limiting patterns of the past
- Apply the lessons and skills you learned from the past to today

Be ready for a journey of exploration and adventure!
