

ANNE MARIE HURLEY
PROFILER

What are people saying?

To Whom it May Concern

Anne Hurley served as a member of A.R.E.'s panel of professional psychics for three years, from 1992-1994, attending conferences both in Virginia Beach and in cities around the country to provide research and personal consultations for our participants.

Members of this panel are chosen through a process of peer nomination and a process of audition and evaluation by psychologists and intuition trainers who are familiar with a wide variety and range of skills of professional intuitive, In her audition with me, providing an intuitive consultation on the telephone, she surprised me with quite a lot of insights immediately upon talking with me, before I even had a chance to speak, insights that went beyond the obvious or superficial. I felt as I were known, and known well, and lovingly.

Feedback from conference participants with regard to Anne Hurley was uniformly positive during her tenure on the panel, reinforcing the validity of the process by which she came to be invited to serve on the panel.

I personally witnessed one of her presentations, involving making intuitive judgments about interpersonal dynamics from family photographs. Her insights were genuinely insightful and I find that I continue to contemplate some of the ideas she garnered from my family photos and had occasion to verify in fact, one of her comments about the past. She was also quite skillful in training others to look at photographs and access intuitive responses to them.

Besides her obvious gifts as an intuitive, Anne also possesses a presence of mind about her, a way of extending graciousness into a roomful of people, putting them at ease. I believe this talent will be an asset as a teacher or workshop presenter. I highly recommend her to you.

Sincerely,
Henry Reed, Ph.D
Consultant in Research on Psychics and Psychic Development
